

TOWN OF EATON

2023 Fireworks Event

June 6, 2023

Dear Community Partner:

We are pleased to announce that the planning of the 2023 Fireworks Event in Danny Howard Park has officially started!

We hope that with the support and generosity from our community that this event will grow bigger and better each year! The donations that we receive will continue to allow us to add more attractions, vendors, and family activities for all ages. These costs are kept at little or no cost to those in attendance and that could not continue to be possible without your sponsorships! It is our hope that this event will become one that generations of Eaton families will attend and enjoy for many years to come!

We understand that everyone has had to make difficult decisions financially and appreciate donations of any amount that support this event. As this hometown event continues to grow larger each year, we also see an increase in the number of visitors from surrounding areas to our parks and businesses. We hope that additional visitors through our town will result in an economic benefit to our businesses!

I have attached the 2023 Sponsorship Form. Donations of any can be made at any time for the Fireworks and are greatly appreciated! Any donations made after June 15 will be directed to the 2024 Fireworks Event. Business and/or individual donations of any amount will help defray our costs and help to continue to make this event better every year!

WE HOPE YOU'LL JOIN US AND MARK YOUR CALENDARS!

We are very excited that this year's event will kick off on Friday, July 1! We will have cornhole boards and other various family activities starting at 6pm. There will be a beer garden and food for sale provided by the EBSA. This event is open to the public! More details coming soon!

If you have any questions regarding any of these events, please feel free to contact my office at 765-396-3980.

Together with your support we can continue to build a better and more vibrant community to live, work and play!

Sincerely,

Bridgett DeWees
