The Town of Eaton Water Utility will be flushing hydrants between the hours of 8am-4pm on February 15, 16 and 17. This is to reduce and remove the accumulation of rust and iron in the Town's water main distribution system. A temporary drop in water pressure is possible. The flushing may cause discolored water in the system. This discolored water is bacteriologically safe and will not harm you. It is recommended that on these days you DO NOT wash white or light-colored laundry. Any questions please call 765-396-3980.

Thanks,
Travis Hunt
Provisional Water Operator
